QUALITY STATEMENT

Global GreenTag International is committed to providing the following highest quality market leading services:

- product certification;
- product standards and accreditation;
- website and certified product database;
- EPD, PCR and PhD and Peer Review Programs;
- manufacturer education and training; and
- licensee and agent services;

to levels of international distinction to meet the needs of the green development, design, consumer and manufacturing sectors.

To maintain our high standards which have already generated a sound reputation within Australia and beyond, it is Global GreenTag International's intention to use and continually improve the effectiveness of a quality management system to support all our activities. Quality must be integrated with every activity undertaken by Global GreenTag International and enthusiastically embraced by all staff and contractors if the objectives of relevant and high quality website, education and training, research programs and international market growth are to be achieved. To ensure success, a complete commitment must be given by all staff, contractors and licensees.

Global GreenTag International will demonstrate its commitment to quality by:

- ensuring its Global GreenTag^{Cert™} Certification, EPD, PCR and PhD Programs are operated in full accordance with this Policy and respective QMS requirements;
- providing training to staff in the workplace;
- supplying ongoing information about the requirements of the quality system;
- providing sufficient resources to maintain procedures;
- reviewing quality objectives regularly and keeping staff informed.

In the end, it is the skill, knowledge, experience and accuracy of each person that will enable Global GreenTag International to achieve its goals.

Satisfied website users and clients are the life-blood of Global GreenTag International's business. To ensure their ongoing support for Global GreenTag International, a demonstrable commitment to satisfying their needs must be apparent at all times. 'Doing a job right the first time' is the key to quality service, cost reduction, increased productivity and staff satisfaction.
