The Global GreenTag MSD™ Modern Slavery Declaration is the first Modern Slavery Declaration for products in the world; a supply-chain specific risk level based verification tool providing the world with:

- Risk Assessment outcomes that demonstrate the extent to which products are being manufactured ethically;
- Evidence and research showing that manufacturers and their suppliers have ensured to the best of their capability and with 100% transparency the health and wellbeing of workers and all people impacted in their supply chains;
- Assurance that a robust third party assessment has been undertaken and identifies Modern Slavery risks and how they are mitigated (or not).
- Plain language explanations of any recognised (or assumed) Modern Slavery in supply chains, which stakeholders can input into their own Modern Slavery Reporting Statements.
- Guidance for manufacturers on the levels of reliability attached to risk assessments undertaken e.g. based on
 onsite audits, remote audits or research based verification so they can progressively work to improve areas of
 concern.
- An evaluation overview and reporting format that is easy to absorb and suitable for aggregating into company level reports for companies now obligated under Modern Slavery Legislation (such as UK, Australia and California - USA) to submit their own Modern Slavery Reporting Statements – especially companies with large procurement portfolios and mandatory legislative reporting requirements.
