

Invitation to Join Expert committee

1. Information on opportunity

Global GreenTag International Environmental Product Declaration (EPD) Program is seeking suitably qualified individuals to submit their application for being a member of our PCR review panel.

The purpose of Expert Committee: The panel aims to support the development and review of PCRs ensuring they meet the Global GreenTag International EPD Program requirements and International Standards of Life Cycle Assessment. Your expertise will contribute to promote credibility and reliability in environmental declarations.

Responsibilities of Panel members:

- To act as the PCR review panel for considering and approving PCR proposals according to the requirements on PCR in General Program Instruction,
- To suggest measures for further development of Expert and LCA -oriented issues within the framework of the Program,
- To consider applications and appoint LCA/EPD/PCR experts to act as external verifiers and suggests measures for the surveillance of their competences and
- To check that verifications done by individual verifiers are carried out according to the requirements in General Program Instructions.

1.1 About Global GreenTag International and the GreenTag EPD Program

Global GreenTag International Pty Ltd is a third-party verified ISO 14024 and ISO 17065 Conformity Assessment Body (CAB). It conducts the Global GreenTagCert™ certification program, a third party, multi-criteria, consensus based and externally verified Type 1 Ecolabelling Program and Certification Mark (registered in Australia, USA and Canada) and approved by the Australian Competition and Consumer Commission (ACCC). GreenTag assessors comply and operate under strict International Standards to undertake product-focused, environmental, health, ethical and social responsibility assessments of products and their manufacturers in accordance with its Standards that now also include a Global GreenTag International NaturePositive+ Standard™ (and NaturePositive+ Declaration™), which require incorporation of Environmental Product Declarations and involve our EPD program. Global GreenTag International (GGTI) is an ISO 14025 compliant Program Operator producing a Type III Environmental Product Declaration. The GGTI EPD Program was established in 2014 and has continued to grow since then. In 2023, it became recognised as an established ECO EPD Verified Programme operator by the ECO Platform, a worldwide association of Program Operators committed to managing the quality of EPDs and distributing EPD data. GreenTag EPDs are Green Star®, LEED® and BREEAM® compliant with all EN 15804+A2 EPDs and ISO

14025 only EPD for non-construction products. As appropriate, they also include a unique Life Cycle Benefit Addendum to measure ecosystem services, avoided impacts on nature, and other circular economy benefits.

We hope that you are interested to know more about the requirements for these positions and apply.

We look forwards to hearing from you.

1.2. Who Should Apply

We are looking for experienced professionals in LCA, sustainability assessments, environmental science, industrial practices, or related fields who have a thorough understanding of ISO standards and PCR development processes.

Minimum Criteria for Applicants:

For LCA experts:

1. Individuals who have completed a degree in a relevant environmental discipline and have experience in LCA
2. Knowledge of relevant standards in the fields of LCA and EPD such as ISO 14040, ISO 14044, ISO 14025, ISO 21930, EN15804+A2 and CEN/TR 16970.
3. Fundamental knowledge of the regulatory framework related to EPD development.
4. Preferably accredited or certified by a recognised institution or have a record of publications, presentations, or participation in peer-reviews in the LCA field
5. Proficiency in type III EPD programs, particularly the rules of the EPD Program they are involved with, including the ECO Platform regulations.
6. In-depth knowledge of processes and products within the specific product category.

For Industry representatives:

1. Individuals who possess extensive industry experience or one who has a degree in the relevant discipline.
2. Familiarity with LCA and environmental aspects related to products.
3. Knowledge of the regulatory framework within the scope of the PCR and LCA-based claims

1.3. Application Process

Interested applicants are requested to send their CV and evidence documents that demonstrate their experience in the respective fields to certification@globalgreentag.com . The applications will be reviewed by the Global GreenTag International EPD Program administration office, and we will respond to your applications accordingly.

Commitment:

- Panel meetings and review processes will be conducted virtually, offering flexibility.
- Details regarding the schedule and level of involvement will be shared during onboarding.

We highly value your experience in helping us establish strong, credible standards for environmental reporting and supporting sustainable practices. If you have any questions or wish to apply, please contact us at certification@globalgreentag.com .

Thank you for considering this opportunity.
