GLOBAL GREENTAG INTERNATIONAL IT

Akshay Benny
IT and Software Development Associate

Akshay holds a Master's Degree in Information Technology at Central Queensland University, specialising in Software Design and Development, with over four years of international experience in client-facing software engineering roles. Possesses strong expertise in full-stack development with a primary focus on backend engineering using Java and Spring Boot.

Previously, he gained extensive industry experience as a Software Engineer at Thinking Code Technologies, developing backend services, optimising PostgreSQL databases, and implementing microservices and API solutions. His background includes hands-on experience with IoT-based web solutions, RESTful API development, and enterprise application architecture.

Currently working as an IT and Software Development Associate at Global GreenTag International, where he designs, develops, and maintains scalable backend systems while collaborating within agile development environments. His role involves translating client and consultant requirements into robust technical solutions, supporting system architecture design, software testing, quality assurance, and data integration initiatives, including Salesforce

migrations. He also contributes to improving system efficiency, maintainability, and data interoperability across platforms.

_____

GLOBAL GREENTAG INTERNATIONAL

Global GreenTag™ International Pty Ltd assesses products for all aspects of impacts on human health, ethical labour supply and the environment. The company was established in 2010 as a third party verified Conformance Conformity Assessment Body that conducts the award winning Global GreenTagCert™ certification program, and a third party, multi-criteria, consensus based and externally verified Type 1 Ecolabelling Program that complies and operates under strict International Standards. Global GreenTag is legally approved as a Certification Mark operator by the ACCC in Australia and by equivalent government agencies in NZ, USA, Canada, and South Africa.

Global GreenTag websites and all marketing collateral for every product certified by Global GreenTag is verified as 'fit for purpose' and compliant with ISO 14021. What's more, Global GreenTag's governance and its own external verification and certification against standards such as ISO 14024 (Ecolabelling), ISO 17065 (Conformance Assessment) and ISO 9001 (Quality Management) among others, is unparalleled.

Voted one of the Top 100 Most Trusted Brands in Australia for 3 years running, Global GreenTag currently has more than 20,000 products in certification by over 300 manufacturers with factories in more than 20 countries. Global GreenTag™ certified products are determined as healthy for use using the best science available, with the results being peer reviewed by highly qualified, external consultant Toxicologists.
