

Global GreenTag International Introduces 5-year Certification Cycle

Onboarding with Sales – Product Service Proposal >> Acceptance
Invoice Issued >> Payment Received
Assessment Period Begins – handover to Product Assessor under Program Director >>
Certification Finalisation
Award Announced on GreenTag Website >> Marketing Support Begins

First year of certification establishes the validity of a product's verified sustainability credentials.
3 months prior to expiration of Year 1 Certification, a renewal invoice is issued. Once payment is received, the reassessment process ensures the product certification remains valid.

Second year certificate 3 months prior to expiration of Year 2 Certification, a renewal invoice is issued. Once payment is received, the reassessment process ensures the product certification remains valid.

Third year certificate 3 months prior to expiration of Year 3 Certification, a renewal invoice will be issued. Once payment is received, the reassessment process ensures the product certification remains valid.

Fourth year certificate 3 months prior to expiration of Year 4 Certification, a renewal invoice will be issued. Once payment is received, the reassessment process ensures the product certification remains valid.

Fifth year certificate 7 months prior to expiration of Year 5 Certification, a recertification proposal and invoice will be issued. Once payment is received, the full reassessment of product proceeds to ensure continued compliance with current standards and certification requirements.
